

A cross-sectional view of a multi-layered structure. A central peak (10) is formed by a series of layers (20, 22, 24, 26, 30, 32, 34, 36) that are stacked and offset to create a stepped profile. The base of the structure is a flat layer (12). The layers are labeled with numbers 10, 12, 14, 16, 20, 22, 24, 26, 30, 32, 34, and 36.
